

1

Go Online

<https://azusa.myenergyxpert.com>

2

Sign Up

Create a **FREE** account.

3

Choose Your Mode

You can choose between **Lite Mode** for quick insights or **Advanced Mode** for a more personalized energy savings plan.

4

Enter Home Details

The audit will quickly walk you through steps starting with your basic home details followed by specific sections.

5

Monitor Savings Instantly

On the right, a sidebar will dynamically update your monetary savings and list qualifiable incentives during your progress.

6

Get Your Improvement Plan

We'll create a personalized **Improvement Plan** highlighting how you can start saving, and associated rebates, if any.

7

Manage Your Improvements

Use the audit tool to manage your tasks. Log back in anytime to view/update action statuses in your Improvement Plan.

Training Manual

Energy decisions made easy.

The smart energy audit that gives you your potential energy savings in less than 5 minutes
